Summary

With over 10 years of experience as a **Technical Lead** and **Senior Software Engineer**, I specialize in scalable web solution architecture, **microservices** development for the financial sector, and adoption of cutting-edge technologies like **Amazon Q**, **Prompt Engineering**, **AWS Cloud**, and **BPMN 2.0** engines.

Technical Lead | SOAINT

08/2023 - Present

- Technical leadership and solution architecture for the main **banking application** in Chile.
- Design of **microservices** using **Java** and **Spring Boot** under high-concurrency standards.
- Technical governance, clean architecture definition, and active development team management.

Technical Project Manager | ZoneKeyboards

01/2021 - 08/2023

- Direction and development of the e-commerce portal with **React**, **Node.js**, and **MongoDB**.
- Custom firmware programming in **C** (**QMK** and **ZMK** standards).

Technical Project Manager | BeeMind

09/2015 - 12/2020

- Planning and migration of legacy GWT architecture to **Microservices** with **Spring Boot** and **Angular**.
- Implementation of **Spring Security**, **Docker**, **SSO**, **API Gateway**, and **DevOps** automation.

Senior Developer (BPMN 2.0) | BeeMind

10/2012 - 08/2015

- Design and integration of **BPMN 2.0** workflows using **Activiti BPMN** and **JBoss BPM** engines.
- Development of Java GWT interfaces and performance optimization for **Banco Penta**.

⚡ SKILLS & COMPETENCIES

- **Generative AI & Cloud:** Kiro, Amazon Q Developer, Prompt Engineering, AWS (Lambda, S3, SQS)
- **Backend & Architecture:** Java, Spring Boot, Microservices, BPMN 2.0 (Activiti / JBoss BPM)
- **Frontend & Languages:** JavaScript, TypeScript, Angular, React, Node.js, C (QMK/ZMK)
- **DevOps & DBs:** Docker, DevOps CI/CD, SQL Server, MySQL, PostgreSQL, Git, GitHub
- **Methodologies & Leadership:** Clean Architecture, SOLID Principles, Technical Team Leadership
